

Magnum Grinder

Daily Cleaning Guide

You Will Need:

- Paper towel
- Sanitiser
- Grounds Brush or other suitable soft bristle brush (a 2" paint brush is perfect)

WEEKLY: Remove the hopper and wash the hopper in warm soapy water and dry thoroughly

1 Towards the end of your working day run the beans in your hopper as low as possible

2 Switch off the grinder in the last few hours if on auto-grind to also reduce the amount of ground coffee in dispenser

3 Remove hopper lid, pull out hopper slide remove the hopper and pour the remaining coffee beans from your hopper into suitable container and store in an airtight container overnight

4 Wash hopper lid in warm soapy water, and wipe the inside of the hopper with a dry paper towel to remove any coffee oils

5 Use grounds brush to clean outside of machine, remove grounds tray and wash in warm soapy water, then wipe the outside of the grinder with a sanitised paper towel

6 Replace hopper, hopper lid, and grounds tray on the grinder. Close the hopper slide
